Venue : Google Meet
No. of Participant : 59 Volunteers
No. of Beneficiaries : 59 Volunteers

Report

Department of Software Engineering and NSS have jointly organized a Webinar on “**Health & Hygiene in Pandemic Crisis**” on 27.08.2021 through Google Meet. The COVID-19 pandemic has an equal impact on all countries. We've seen a significant increase in the number of cases. Most have been confirmed as of today. Following the emergence of the COVID-19 pandemic, governments across the world rushed to implement social-distancing, quarantine, and isolation measures. These actions, while necessary, can have a substantial impact on the mental health of young people. The aim of the webinar is to bring together all the stakeholders in the same platform to analyze and reflect the lesson learnt so far and integrating knowledge to understand the different aspects of COVID-19 at national and international levels. The COVID-19 pandemic makes one wonder of whether or not humanity is prepared to deal with a crisis like the one that is currently unfolding. Dr.M.Aditya, District Program Officer Vellore District, shared knowledge of action plans, protocols, and guidelines with students in his keynote address.

Programme In-charge

Attendance

Name of the Programme : **Health & Hygiene in Pandemic Crisis**

Date : 27.08.2021

Venue : Google Meet

No. of Participant : 59 Volunteers
